

Manifesto

I, Somesh Kulkarni (14D100011), propose to implement the following, if I were to be appointed as the Technical Secretary of Hostel 2:

Initiatives:

- Maintaining proper record of inventory in the tech room.
- Float projects for smart hostel concept such as automated jam and butter applying bot.
- Try improving the safety by floating project for snake alerting sensors .
- Improve the performance of hostel in Tech GC by promoting technical activities and workshops before the GC.
- Try conducting an open intra competition with low preparation level.
- Try including magazines about new technology and upcoming gadgets in the library.
- Invite and myself put up posts related to tech (any new technology, any project) on the hostel facebook page to keep people interested in tech scene.
- Try to get the material of workshops conducted and put it up for everyone who missed it.
