TECH COUNCIL WORK REPORT

TECH ROOM
- The tech room was properly cleaned and old damaged things were separated from the good usable ones.
- New useful tools and equipment were brought and their use was promoted by making the hostel inmates aware about them.
- There is regular check on the things in the tech room so that they are not lost or stolen.

TECH MAGAZINE
- The technical magazine '**POPULAR SCIENCE**' was subscribed which is a monthly magazine for giving the latest updates on technology around the world.
- The inmates were made aware of the magazine and it's contents and were motivated to read it and get updated in the advancements happening in the tech sphere.

MENTORING TO HOSTEL FRESHIES
- The allocated freshies to the hostel were mentored and guided in RC plane competition and their other projects.
- They were provided the necessary tools and space for making their bot.
- Overall, they were motivated to do more technical activities in the near future.

INTRAS
- There were two intras organized for LOGIC GC:
- INTRA - 1:
  Around 30 students participated
- INTRA - 2:
  Around 25 students participated
- There was proper publicity of the events and the GC participation was also successful with 16 teams

DATABASING
- The databasing of the technical interests and work of the hostel inmates is going on and currently we have data of about 40-50% hostel inmates.
